

## ABOUT THE UNIVERSITY

The Universidad Nacional de Agricultura (UNAG) is a higher education institution dedicated to the education of professionals in different fields of agricultural sciences. UNAG has boarding students that live on campus with scholarships to cover their living expenses and commuting students who live off campus. UNAG's motto is "learn by doing" and students strive to follow the three core principles of, "study, work, and discipline." To achieve these principles, boarding students spend half of the day in classes and the other half in practical field work related to their classes. All students wear uniforms and abide by a strict disciplinary code. The university is located in the city of Catacamas, department of Olancho, Honduras, about three hours from the capital city.

## STUDENTS

UNAG has a diverse student population, mainly attracting low income students from all departments of Honduras, representatives from the different indigenous and Afro-Honduran populations in Honduras, as well as international students. UNAG offers an ideal environment for high quality scientific, technical and practical study, which ultimately contributes greatly to the development of the country.

## INFRASTRUCTURE

UNAG has over 850 acres of land, with animals, horticulture, greenhouses, an agro-ecological/organic farm, food processing plants a laboratories, a veterinary hospital, a forest reserve, videoconference rooms, classrooms, dining halls, a library, computer labs, athletic fields, and a pool.

## QUALITY EDUCATION

The University has qualified specialists in each of its departments that work on teaching, research and outreach. Students are able to enroll in extra-curricular English classes to be able to graduate fluent in the English language. Students also have many international exchange opportunities.

## AGRICULTURE AND LIVESTOCK BUSINESS ADMINISTRATION MAJOR

### VISION

To broaden the academic offering at the Universidad Nacional de Agricultura as part of a social commitment with the Honduran society to create an innovative school of humanistic, scientific and technical thought in the agriculture and livestock business administration sciences, converting it into a successful and attractive study option for Honduran and Central American youth.

### MISSION

The agriculture and livestock business administration major trains professionals with technical, humanistic and conceptual abilities, utilizing a broad view of the world and profound ethical values to create leaders in the study, generation, and dissemination of administrative and technical knowledge, capable of creating and managing businesses based on human needs, contributing to the formation of a just and caring society.

### STUDY PLAN

To obtain a bachelor's degree in agriculture and livestock business administration, students must pass all courses in the study plan. The minimum grade to pass a class is 60%. In order to graduate, the student must obtain an overall academic average of at least 70%. The major has a duration of four years and is divided into 12 academic periods of 15 weeks each. The study plan and major were approved by the Council of Higher Education of Honduras through agreement number 2211-236-2010.

### I PERIOD

Code	Courses	Credits
ME-011	Math I	5
